***Audit Report  
Year 1984***

February 12, 1985

Selectmen

Town of Moultonboro, New Hampshire

We have examined the combined financial statements of the Town of Moultonboro and its combining and individual fund financial statements as of and for the year ended December 31, 1984, as listed in the table of contents. Our examination was made in accordance with generally accepted auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the combined financial statements referred to above present fairly the financial position of the Town of Moultonboro as at December 31, 1984, and the results of its operations and the changes in financial position of its proprietary fund types and similar trust funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year. Also, in our opinion, the combining and individual fund financial statements referred to above present fairly the financial position of the individual funds of the Town of Moultonboro at December 31, 1984, their results of operations, and the changes in financial position of individual proprietary funds for the year then ended, in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

## **NOTES TO THE FINANCIAL STATEMENTS**

**December 31, 1984**

### **Summary of Significant Accounting Policies**

The Town of Moultonboro was incorporated November 27, 1777, and its accounting policies conform to generally accepted accounting principles as applicable to governments. The following is a summary of the more significant policies:

#### **Fund Accounting**

The accounts of the Town are organized on the basis of funds and account groups, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise its assets, liabilities, fund equity, revenues, and expenditures, or expenses, as appropriate. Government resources are allocated to and accounted for in individual funds based upon purposes for which they are to be spent and the means by which spending activities are controlled. The various funds of the Town of Moultonboro are grouped, in the financial statements in this report, into three generic fund types and two broad fund categories as follows:

#### **GOVERNMENTAL FUNDS**

**General Fund** - The General Fund is the general operating fund of the Town. It is used to account for all financial resources except those required to be accounted for in another fund.

**Capital Projects Funds** - Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds, Special Assessment Funds and Trust Funds).

**Special Revenue Funds** - Special Revenue Funds are used to account for the proceeds of specific revenue sources (other than special assessments, expendable trusts or major capital projects) that are legally restricted to expenditures for specified purposes.

#### **FIDUCIARY FUNDS**

**Trust and Agency Funds** - Trust and Agency Funds are used to account for assets held by the Town in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds. For the Town

of Moultonboro, these include the Expendable Trust and the Nonexpendable Trust. The Nonexpendable Trust is accounted for in essentially the same manner as proprietary funds since capital maintenance is critical. Such trust funds are normally referred to as endowment funds wherein the principal must remain intact. Expendable Trust Funds are accounted for in essentially the same manner as governmental funds. Agency funds are custodial in nature (assets equal liabilities) and do not involve measurement of results or operations.

## **Fixed Assets and Long-term Liabilities**

The accounting and reporting treatment applied to the fixed assets and long-term liabilities associated with a fund are determined by its measurement focus. All governmental funds and Expendable Trust Funds are accounted for on a spending or “financial flow” measurement focus. This means that only current assets and current liabilities are generally included on their balance sheets. Their reported fund balance (net current assets) is considered a measure of “available spendable resources”. Governmental fund operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in net current assets. Accordingly, they are said to present a summary of sources and uses of “available spendable resources” during a period.

Fixed assets used in governmental fund type operations (general fixed assets) are accounted for in the General Fixed Assets Account Group, rather than in governmental funds. All fixed assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated fixed assets are valued at their estimated fair value on the date donated.

Long-term liabilities expected to be financed from governmental funds are accounted for in the General Long-Term Debt Account Group, not in the governmental funds.

The two account groups are not “funds”. They are concerned only with the measurement of financial position. They are not involved with measurement of results of operations. No depreciation has been provided on general fixed assets.

## **Basis of Accounting**

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

Governmental fund revenues and expenditures are recognized on the modified accrual basis. Revenues are recognized in the accounting period in which they become available and measurable. Expenditures are recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt.

Nonexpendable or endowment trust funds are accounted for using the accrual basis of accounting. Their revenues are recognized when they are earned, and their expenses are recognized when they are incurred. Revenue earned on such endowment funds is then transferred from the endowment fund to an endowment revenue fund. This endowment revenue is then treated as an expendable trust fund. The endowments are designated in the financial statements as reservations of fund balance.

**Budgets and Budgetary Accounting**

The budgets of the Town of Moultonboro are formally acted upon at the annual town meeting. Under the Town’s coterminous relationship with the Moultonboro School District, such District’s approved budget is assessed to the Town for inclusion in the property tax levy. Final approval of all budgets is under the jurisdiction of the Department of Revenue Administration of the State of New Hampshire as well as the setting of the tax rate for the property tax levy.

**Encumbrances**

Encumbrances are commitments related to unperformed (executory) contracts for goods and services. Those outstanding at year end represent the estimated amount of the expenditures ultimately to result if unperformed contracts in process at year end are completed. Such encumbrances do not constitute expenditures or liabilities and are reported as reservations of fund balance.

**Accumulated Employee Benefits**

Accumulated unpaid vacations, sick pay and other employee benefit amounts are not accrued in governmental funds (using the modified accrual basis of accounting). The amounts, however, are not considered material.

**Total Columns on Combined Statements - Overview**

Total columns on the Combined Statements - Overview are captioned Memorandum Only to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results

of operations or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

### **Operating Transfers**

Operating transfers are legally authorized transfers from a fund receiving revenue to the fund through which the resources are to be expended such as transfers from the general fund to the capital projects fund or to the expendable trust funds.

### **Grants, Entitlements and Shared Revenues**

The basis of accounting is determined by the fund type in which such revenue transactions are recorded. Transactions accounted for in the general and capital projects governmental funds are recorded on the modified accrual basis. Grants, entitlements or shared revenues received for purposes normally financed through the general fund are accounted for within that fund. Such revenues allocated for capital outlay purposes are accounted for in the capital projects fund.

### **Note 1 - Commitment - School District Debt Service**

The Moultonboro School District, a separate body politic and municipal corporation, issued long-term debt obligations in 1980 to finance the construction of its new educational facilities. Obligations were issued in the total amount of \$3,100,000.00, \$2,800,000.00 issued July 1, 1980 and \$300,000.00 issued August 1, 1980. Annual payment of principal on the first issue is in the amount of \$280,000.00 payable over a ten year period commencing July 1, 1981 and ending July 1, 1990. Annual principal payments on the second issue are in the amount of \$30,000.00 payable beginning August 1, 1981 and terminating ten years later on August 1, 1990. Both issues are coupon bonds bearing an interest rate of 6.90 per cent. The State of New Hampshire aid of 30 per cent is available to assist in the principal portion of the debt retirement. The new district assumed its share of existing debt from its previous membership in the Governor Wentworth Co-operative together with its share of State aid thereon.

### **Note 2 - Retirement Plan**

The Town of Moultonboro is a member of the State of New Hampshire Retirement System with the employees of the police department its only members. Financing of the Town's participation is provided through both

employee contributions and the Town's employer contributions. Further information concerning the operations, funding policy and benefit data of the New Hampshire Retirement System may be obtained from its financial presentations and actuarial reports.

**Note 3 - State Aid Reconstruction Funds**

Intergovernmental revenue representing the State of New Hampshire contribution of SAR Funds is not budgeted as estimated revenue by the Town thereby creating in 1984 an excess of actual revenue over no budget of \$10,000.00. The Town's allocation of SAR Funds are appropriated as budget expenditures but remain in the general fund thereby creating in 1984 an excess of budget appropriations over no actual expenditures of \$5,000.00.

**Note 4 - Long-term Debt**

The Town of Moultonboro issued long-term debt obligations in 1981 to finance the purchase of a new fire truck. Promissory notes were issued in the total amount of \$88,215.00 on May 18, 1981. Annual principal payments were in the amount of \$29,405.00 payable over a three year period commencing May 18, 1982. The notes had an interest rate of 8.98 per cent payable semi-annually.

**Note 5**

At the annual town meeting held in March, 1982, it was voted to carry forward into subsequent years any excess funds received over the costs for plowing private driveways. A summary of funds received and expended during 1984 and previous years is as follows:

	1984	Previous Years
Total Funds Received	\$97,742.66	\$186,439.14
Total Funds Expended	86,057.28	118,340.29
Excess	<u>\$11,685.38</u>	<u>\$ 68,098.85</u>

The total of \$79,784.23 is reflected as a reservation of the general fund balance in Exhibit A.

**TOWN OF MOULTONBORO  
NEW HAMPSHIRE**

**NARRATIVE EXPLANATIONS**

**(useful in understanding combining and individual fund statements).**

The financial presentations under the caption in the table of contents General Purpose Financial Statements reflect the resources and operational results of the various funds in a combined status. The statements presented in the table of contents captioned Combining and Individual Fund Statements present resources and detail of operations by each fund where a governmental unit has more than one fund of a given fund type. Individual fund statements are presented when applicable where a governmental unit has only one fund of a given type and desires to present data in detail which agrees with various totals appearing in the combined financial presentations contained in the general purpose financial statements.

The financial statements presented under the caption in the table of contents General Purpose Financial Statements contain only those statements necessary to report the financial position and operating results of the Town's individual funds and account groups, to demonstrate compliance with Finance-related legal and contractual requirements, and to assure adequate disclosure at the individual fund equity level. Those statements necessary for these purposes are required.

**TOWN OF MOULTONBORO  
NEW HAMPSHIRE  
Report on Internal Accounting Control  
December 31, 1984**

February 12, 1985

The Board of Selectmen  
Town of Moultonboro, New Hampshire

We have examined the financial statements of the Town of Moultonboro for the year ended December 31, 1984, and have issued our report thereon. As part of our examination, we reviewed and tested the Town's system of internal accounting control to the extent we considered necessary to evaluate the system as required by generally accepted auditing standards. Under these standards, the purpose of such evaluation is to establish a basis for reliance thereon in determining the nature, timing and extent of other auditing procedures that are necessary for expressing an opinion on the financial statements.

The objective of internal accounting control is to provide reasonable, but not absolute, assurance concerning the safeguarding of assets against loss from unauthorized use or disposition and concerning the reliability of financial records for preparing financial statements and maintaining accountability for assets. The concept of reasonable assurance should not exceed the benefits derived and also recognizes that the evaluation of these factors necessarily requires estimates and judgments by management.

There are inherent limitations that should be recognized in considering the potential effectiveness of any system of internal accounting control. In the performance of most control procedures, errors can result from misunderstanding of instructions, mistakes of judgment, carelessness or other personal factors. Control procedures whose effectiveness depends upon segregation of duties can be circumvented intentionally by management with respect either to the execution and recording of transactions or with respect to the estimates. Further, projection of any evaluation of internal accounting control to future periods is subject to the risk that procedures may become inadequate because of changes in conditions and that the degree of compliance with the procedures may deteriorate.

Our examination of the financial statements made in accordance with generally accepted auditing standards, including the study and evaluation of the Town's system of internal accounting control for the year ended December 31, 1984, that was made for the purposes set forth in the first paragraph of this report, would not necessarily disclose all weaknesses in

the system because it was based on selective tests of the accounting records and related data.

Again, as mentioned in last year's report, the New Hampshire Statutes designate the performance of the functions of revenue collection and the accountability thereof to certain elected Town officials. Under such circumstances, there may not exist a segregation of personnel between those responsible for the receiving and depositing of cash receipts and those engaged in the preparation of the bookkeeping records for such transactions. This is a condition of weakness in the system for which corrective action by the Town of Moultonboro Selectmen is not practicable in the circumstances.

The above condition was considered in determining the nature, timing and extent of audit tests to be applied in our examination of the financial statements, and this report of such condition does not modify our report dated February 12, 1985 on such financial statements.

## Librarian's Report

The year 1984 has seen the library carry on in the same manner as in previous years. The trustees and the librarian manage the library funds in an economical manner and the library is kept up-to-date, books are purchased with recommendations from patrons and friends, and an excellent selection is available.

The list of books given as memorials is published in the town report each year and are as follows:

Roland Nault-Historical Society; Ralph Dale-Pythian Sisters; Raymond Taylor-Mr. and Mrs. Richard Plaisted; Ardis Monteith-Women's Club; Mildred Hatch-Women's Club; Leah Wakefield-Wendy Nolan Sutton; Paul F. Blanchard-Adele Taylor; Edwarda Mickalsen-Castle Shores Neighbors; Thomas Cooney-Mr. and Mrs. Henry Wakefield; Harold Dederick-Historical Society; Katherine Quirk-Mr. and Mrs. Harold Martin, Mr. and Mrs. John Anderson, Mr. and Mrs. Audrey Smith; John Howell-Mr. and Mrs. Murray Nickerson, Sr., Historical Society; Evelyn Brown-Mr. and Mrs. Charles Wetergreen, Tammy Sturgeon, Mr. and Mrs. Richard Plaisted, Adele Taylor, Historical Society, Martha Oliver; Donald Thompson-Mr. and Mrs. Thomas Fearnside, Mr. and Mrs. John Baumgartner; Robert Lowney-Historical Society; Dorothy K. Hall-Mr. and Mrs. Ralph Lane; John Donohue-Mr. and Mrs. Arthur Creelman; Ellena Bagdasarian-Mr. and Mrs. William Smith.

A new trust fund was established. It is the Ellena Bagdasarian Fund. Each year as the interest is received, books are purchased as memorials to the one for whom the fund was established.

This year brought sadness because of the death of Donald Thompson, a beloved former trustee and friend.

Three of the present trustees will complete their terms and not seek re-election. They are Jane MacDonald, Margaret W. Lamprey, and Marjorie Stoneking. They have been excellent trustees.

The library is now the proud owner of a microfilm reader and over 75 rolls of film, largely on the U.S. Census. These should prove valuable in genealogical research. These were the gift of Mrs. Donald J. Thompson.

The library has an excellent collection of Large Print Books, and donations have been received that have enabled the collection to be as large as it now is. Additions are made from time to time.

This year 664 books were added to the collection. Of these 209 were gifts. Moultonboro wouldn't have such a fine library were it not for its generous friends.

The library circulation statistics are as follows:

	1984	1983
Fiction	8451	8739
Nonfiction	4974	5599
Juvenile	4842	5148
Magazines	1729	1529
Records	632	973
Total	20,629	21,988

Library hours are: Monday, Wednesday, and Saturday: 1:30-5:00 P.M., 6:30-8:00 P.M.

# Moultonboro Visiting Nurse Service

## Annual Report 1984

The Visiting Nurse Service has had another busy year. Nurse-patient contact through blood pressure clinics, office and home visits totaled 3193. A nurse is available in the office Monday - Friday from 8:30 to 9:00 a.m. to check blood pressures and take phone calls. The Visiting Nurse Service is a community service available to residents to assist with health-related problems. The nurses attempt to assist patients in managing themselves in their own homes and when this is not possible the nurse helps the patient and family in making proper referrals and arrangements.

A monthly blood pressure clinic is held at the Meredith Village Savings Bank, Moultonboro Branch. Flu immunization was available to residents in the fall. The nurses encourage "high risk" adults to take advantage of this clinic - those 65 years and over and those who have an existing condition, such as diabetes, heart problems or are prone to upper respiratory disease. The service has also recently been taking part in assisting with the monthly WIC Program (women, infants and children), where the nurses monitor children's height, weight, hemoglobin and general growth and development.

The holiday season is a very busy time of year for the nurses. "Thank-you" to all organizations, churches and residents for your most generous donations of food, clothing, mittens, money, toys, etc. It is the contributions that help make the holidays a little more pleasant for area families. I would also like to extend my thanks and appreciation to the Board of Directors and Medical Advisory Committee for your support and efforts over the year.

Many thanks to Kathryn Bevington, R.N., for all her assistance as alternate nurse.

Respectfully submitted,  
Debra Peaslee, R.N.

# Moultonboro Visiting Nurse Service

## Report of Board of Directors

The Moultonborough Visiting Nurse Service is proud of its 14 years of dedicated service to our community. Through the years, we have proven to play a vital and integral part in the lives of our townspeople. We strive to keep our standards and the quality of care high. This is reflected in the number which we serve yearly. During 1984, 3193 patients were seen including home and office blood pressure checks.

This year, for the first time, the nurses participated in the WIC Program performing routine health checks on infants. The program is administered monthly from the Lions Club Hall on Rt. 109. We lended our support to the Meals on Wheels Program when the need arose at the State Council for the Aging. At Thanksgiving and Christmas, the Service distributed food baskets, clothing and toys to many deserving families. We wish to thank everyone who, through their generosity of donations, made all of this possible. We are grateful to the Student Council at Moultonborough Academy who raised money and bought \$300 worth of toys. Once again, the Moultonborough Women's Club, Methodist Women,, Lions Club, Kiwanis, Elks, Brownies, Girl Scouts and the Fire Department generously donated to our effort.

The annual flu clinic was held last fall. Debbie Peaslee is presently serving on the Alzheimer Advisory Committee in Ossipee.

We accepted, with regrets, the resignation of Mrs. Leslie Yancey who served on both boards during 1984. Her term was filled by Mrs. Patricia Hammond, R.N. Mrs. Beverly Taylor, R.N., N.P. has joined us serving as Member-at-Large for a 1 year term.

Our supervisory nurse, Mrs. Deborah Peaslee, R.N. and our alternate nurse, Mrs. Katherine Bevington, R.N. continue to serve the community and are available Monday through Friday, 8:00 A.M. - 1:00 P.M. The office is open weekdays from 8:00 - 8:30 A.M. for blood pressure checks and appointment scheduling. Monthly blood pressure clinics are held at both Moultonborough Branch Banks.

We care and we are here to serve you!

# Report of the Planning Board

Nineteen hundred eighty-four was a very significant year for the Moultonborough Planning Board. During the year, three people served as Chairman. Beginning the year, William Clark served as Chairman and was replaced in March by Donald Pollock who served as Chairman through October. In October, the current Chairman, Melvin Borrin, was elected. The Board was reorganized with Frederick Carver being named a permanent member on November 14, 1984, and the appointment of two alternates by the Board of Selectmen. R. Natt King was appointed on November 14, 1984, and Richard A. Wakefield was appointed on December 5, 1984. The alternates attend all meetings.

During the past year, the majority of the Board's time was spent on one major hearing concerning a condominium development proposed to be built on Long Island. The entire hearing procedure went on for over ten months. At the present time, we can offer no further comment as to that particular hearing, as certain opponents to that proposed plan have taken action in the Superior Court. It remains an unresolved matter.

At each meeting of the Planning Board, several subdivisions, both of a major and minor nature, were considered. The total new building lots created during the year with the approval of the Board was eighty-two (82) in twenty separate applications. There were three (3) condominium conversions resulting in the creation of nineteen (19) condominium units and one (1) new condominium development representing thirty (30) units. The Board was also active in decreasing the number of lots by boundary line adjustments. In eight (8) applications, a total of twenty (20) lots that were existing have been reduced to sixteen (16) lots.

The Planning Board hours, both for meetings in public session and of office hours have been changed. They are currently as follows: The regular meetings of the Moultonborough Planning Board are held on the second and fourth Wednesdays of every month at 7:30 P.M. at the Moultonborough Town Office, unless otherwise specified. The Planning Board Office is open on Thursday evenings from 6:30 P.M. to 9:30 P.M. and Saturday mornings from 9:00 A.M. to 12:00 NOON. The telephone number is 476-8420. The office is open for your convenience to review plans which are on file or to make appointments for upcoming meetings. The Agendas for each meeting are posted at the Moultonborough Town Office, the Moultonboro Post Office, the Centre Harbor Post Office and E.M. Heath's grocery store.

No doubt through the review of the past expenditures of the Planning Board during 1984, the public will fully realize that our expenditures far ex-

ceeded the budget. The main reason for this is the amount of legal counsel that had to be sought during the numerous hearings of the Board. The anticipated budget proposal for 1985 is an attempt for the Planning Board to function effectively within the budget.

In conclusion, I would like to take this opportunity to thank all of the Planning Board members for the time they have spent in deliberations and also in the thought process that they have developed in looking toward the future of the Town of Moultonborough. One of the major objectives of the Board for 1985 will be to develop a comprehensive set of ordinances to be proposed to the Townspeople at some time during the calendar year for their consideration in the areas of limiting shorefront development, limiting the use of signs and commercial site plans.

As Chairman, I am impressed by the sincerity of the Planning Board members and appreciate the endless hours spent beyond the required meetings. The people who serve on the Moultonborough Planning Board take their appointments as public officials very seriously. This is illustrated in how few meetings the members miss and their overall patience in dealing with matters coming before the Board. It is both an honor and a privilege to serve you as Chairman.

Respectfully submitted,  
Moultonborough Planning Board  
Melvin B. Borrin, Chairman

This past year has seen an increase of activity for the Moultonboro Police Dept. Our current force includes the following: 3 full time personnel, 8 part time Police Officers. This year the town employed a Northeastern student for 6 months, which increased the town's full time personnel between June and December to 4 men.

Between January and May the town employed 2 full time personnel, and the part time police officers worked extensively during this period. I wish to take this opportunity to express our appreciation to their dedication to the community for their contribution in helping to maintain the quality of life in this community during this period.

In May of this year Norman Brown of Tilton, N.H., was appointed a full time officer, taking the place of John MacDonald. Officer Brown has served with the Northfield Dept., Tilton Dept., and came to us from the N.H. Dept. of Safety.

We continue to use the services of our Dog Officer which has been an asset to the Department with pet complaints and the handling of all dog related events.

The year 1985 the Department is looking for volunteers from the community to help with Crime Prevention Programs, which we feel will greatly contribute to a safer community.

I wish to thank the community for its support over the year, and the fine cooperation we have received from other law enforcement agencies and town departments.

Respectfully submitted,  
Chief James Woodman

## 1984 ANNUAL REPORT

1984 was the busiest year in the history of the Fire Department. Our men and equipment responded to 85 Fire Emergencies, 120 Medical Emergencies, and 21 Accidents, for a total of 226 calls. This level of activity represents a 5% increase over 1983 and a 1000% increase since 1972.

We presently have 35 Fire Fighters on our active roster. Our members devoted over 15,000 hours in service to our Town while at Training Sessions, Meetings, Work Sessions, and Emergencies. The Chief Officers of the Department are attending special seminars sponsored by the Lakes Region Mutual Fire Aid Association. All of our members attend regular training sessions as well as Regional Fire Schools. Our newest members are taking the State of New Hampshire Certified Fire Fighter Level I course at this time. This course is the same one that is mandated by State Law for all permanent Fire Fighters.

During 1985 we hope to replace our oldest Fire Engine which is a 1957 FWD with a new four wheel drive engine. A special Truck Committee has been working for the past year in drawing up specifications and soliciting bids. Our proposed new engine will be constructed out of aluminum which we hope will last 25 years even at our higher levels of activity.

The Fire Department wishes to thank the Selectmen, the Police Department, the Highway Department, our residents and visitors for their generous assistance and support during the past year.

Yours truly,  
Richard E. Plaisted, Chief

# Report Of Town Forest Fire Warden And State Forest Ranger

Our first forest fire prevention law was enacted by our State Legislature 90 years ago. This early law set in place a cooperative forest fire prevention and suppression effort between city and town governments and State governments. It simply stated that no open fire could be kindled, when the ground is free of snow, without the written permission of the town/city Forest Fire Warden. This law also stated that anyone kindling a fire without written permission shall be liable for the damage caused and subject to a \$1000 fine.

During the past 90 years, this law has worked so well that it has remained unchanged. All open fires when the ground is not covered with snow must be authorized by the local Forest Fire Warden. Persons kindling a fire without a permit when one is required are liable for damages caused, fire suppression costs and subject to a \$1000 fine.

This cooperative fire prevention law has contributed significantly to our nationally recognized annual forest fire loss record.

# Report of the Recreation Department

A varied and active recreation program was offered and enthusiastically supported in 1984.

The youth athletic program continues to be an extensive and vital part of the recreation program. The winter months saw another significant increase in basketball participation with an encouraging increase in the number of girls competing. Well over 60 boys and girls joined in basketball with an additional 20 children participation in the cheerleading program.

The youth baseball program went through some major changes this year, which will be beneficial to the program. Moultonborough now sends 4 teams to compete in the Meredith Youth Baseball League. This has been a positive experience in that it has improved the quality of competition for the children and will be a better financial arrangement for the town. An instructional league baseball program for boys and girls ages 6-7 was also very successful. Moultonborough was well represented with a very competitive team in the Laconia Babe Ruth Baseball League. In all there were well over 100 children ages 6-15 competing in baseball or softball programs for Moultonborough.

In the fall of 1984 over 60 children ages 6-12 participated in either the instructional league or youth league soccer program.

In all youth sports programs Moultonborough was well represented and very successful in tournament competition at the regional and state level. At the end of each season the youngsters were honored with either a banquet or family play-day and each child received a participation award.

Many Moultonborough youngsters ages 8-14 enthusiastically supported the summer recreation program in 1984. Daily attendance at the playground ranged from 15-45 boys and girls. The activities included sports, games, creative activities, special events, weekly trips to local attractions, hiking, bowling and a trip to the ocean. There was also an overnight camping and biking trip to Maine, participation in field days and a talent show and family night. After holding a local frisbee competition the champions traveled to Saco, Maine and successfully competed in the Sectional Championships of the Jr. World Frisbee Competition. In July a team of Moultonborough youngsters competed in the N.H. State Track & Field Meet in Concord where several boys and girls performed well enough to win awards as state finalists.

In addition to these activities, a three day camping and biking trip for 14 & 15 year olds and a "Mother's" camping trip were offered.

July Fourth activities this year included active participation in the parade and a family day of baseball, softball, games and races and were all well received by adults and children.

Well over 100 children took American Red Cross swimming and water safety classes at Long Island and States Landing Beaches. A competitive swimming team was again offered at Long Island with over 25 children competing against other teams.

Tennis lessons were offered in the summer months with over 40 adults and children taking advantage of these.

A gym and swim program offered through the Recreation Department and held at the Lakes Region YMCA included swimming lessons and an activity period. Over 45 children participated in either the spring or fall sessions.

The Moultonborough Recreation Department's trip to Portland in February to the Ice Capades was well received by the adults and children who participated.

In December an enthusiastic group participated in the Recreation Department's Christmas Carolling.

Adult recreation programs in basketball and volleyball held in conjunction with the Moultonborough Adult Education Program continue to be offered in the fall, winter and spring.

In the spring, the tennis and basketball courts were re-surfaced to make much improved conditions there.

The softball field, soccer field, tennis and basketball courts and beaches are always crowded in the warm weather as both year round and summer residents continue to take advantage of the recreation facilities offered.

As always, it is impossible to adequately thank the many volunteers who coach, officiate, transport, and lend a hand. They make the program a quality one. Sincere appreciation also goes to the School Administrators, Athletic Director, custodial staff and secretaries who allow the use of facilities and create a great school-community relationship.

Many thanks to the recreation staff for a job well done in 1984: Beth Glascott who completed her seventh summer of outstanding swimming instruction at Long Island Beach; William Judge who worked with both the summer program and youth sports program and Mary Ellen Pearce and Scott Greene as tennis instructors. A special thank you to Heidi Gruner Southard whose assistance and support as Assistant Recreation Director, tennis instructor and friend will be hard to replace after 5 years.

Respectfully submitted,  
Donna Kuethe  
Recreation Director

# Report of the Moultonborough Conservation Commission 1984

The Conservation Commission continues its efforts to define and protect those wetlands identified by the Barry Keith study, and accepted by Town vote as features of concern and importance to the Town. The Red Hill River system of wetlands is the best protected to date thanks primarily to the efforts of Richard Foster. He has placed wetlands under conservation easements and has encouraged abutters to do likewise. The impact of the Town landfill is still a question. Efforts to protect Mud Pond - our unique and valuable bog adjacent to the town's recreation area - have been less fruitful. Little encroachment has occurred to date except for filling by the Town to protect the Ball Field. Efforts to protect the bog will continue.

The Commission has spent considerable time and effort to identify our underground water supplies (aquifers). In connection with this effort, the Commission is proud to acknowledge the work of Diana W. Morgan on this project. Her choice of this work for a thesis at UNH benefitted the Town for protection of groundwater supplies is increasingly essential. To protect these aquifers will require land use regulations to prevent contamination especially in the area of Balmoral and along Route 25 from both the landfill operation and the State's salt shed. Another threat to aquifers is the possible threat of pollution from winter use of Berry Pond. Efforts will be made to identify and measure the impact of both salt and deposits of petroleum and other wastes on the ice. Berry Pond is protected by law in the summertime by restricting use of motor boats.

The Town will have another opportunity to begin protection of its largest aquifer by acquiring the land offered by Marion Goodwin - 15 acres of marsh and swamp. The only uses in the past for this parcel have been marsh hay and some minimal cordwood, therefore there is little reason not to accept this land for conservation purposes. Beavers continue to flood the land.

During the past year, the Commission has continued to review and recommend action such as approval or denial to the Wetlands Board as set forth by law. These applications include ones for dredge and/or fill, docks, beaches, breakwaters, and filling of wet areas. The following have been approved:

Docks - 15	Beaches - 9	Breakwaters - 8
Wet areas - 7	Stream diversion - 6	Dredging - 6
Submarine lines - 5	Rock removal - 5	Dug slips - 3
Others - 5		

Twelve cease and desist orders were recommended and issued for nonpermitted use or excess over permitted use. Such categories as Docks in excess of permitted use, or permitted density, poor location, insufficient need shown or boathouse in/on the lake.

Water Milfoil continues to be a problem with little permitted controls. Waterfront owners are warned against unauthorized use of chemical applications which will reduce water quality and be a hazard to water supplies and swimming, to say nothing of damage to wildlife. The Commission will continue to seek safe and sane means to reduce this weed.

The flooding of last May and June was of record level. It reminds us all that septic systems close to the lake can be a hazard as well as an excessive inconvenience and economic burden. Locate and inspect yours yearly. Post its location so all can protect your interest and health.

If you are planning to dredge and/or fill wet areas or in the lake, or if you are planning docks, breakwaters or beach maintenance, or culvert, the Conservation Commission can help you and expedite the process of approval. If you have a desire to protect land from overuse, we can also be of assistance.

Respectfully,  
Paul C. Lincoln, Secretary  
Richard Vappi  
B. Kimball Ayers, Jr., Chairman
